

ARBZILLA PAPER

**ONLY ONE KING
ON THIS WORLD**
(QIN SHI HUANG)

ABOUT US

Arbzilla is the project owned and managed, comes with a large supply for all the people in the world.

sprouted out of necessity due to the increasing scams and rugpulls around the crypto-space. After being victims of countless scams, the Founder decided to make a project and token for the community that will serve a legitimate purpose.

Arbzilla Founder, having a marketing & development background and experience in crypto-space since early 2017 saw the opportunity to create a real project driven by strong loyal community.

arbzilla comes with great security, lock lp, renounce ownership, experienced and wise founders.

OUR MISSION

ArbZilla mission is to change the space and make it safer for the global crypto community, specifically in new token launches where most of the issues exist revolving crypto scams.

Arbzilla's vision is a future where all legitimate crypto launches are authenticated through the founders and the ArbZilla community. badges to measure each launch for project safety.

Making our community that supports arbzilla feel safe, comfortable and profit is the main mission of ArbZilla.

WHY ARBZILLA ?

COMMUNITY

Arbzilla has a behind the scenes community that always supports us.

SAFU

Arbzilla has good security, by locking lp, renounce ownership and having project clarity.

GREAT MARKETING

Our founder has 5 years of experience in the crypto world, so he has a team to manage ArbZilla's marketing, what is clear is that Arbzilla "WILL NOT WASTE MONEY MARKETING" because our founder has his own marketing strategy.

UTILITY

Arbzilla will make ZILLASWAP ON ARBITRUM, NFT, and Dapps.

ARBZILLA

TOTAL SUPPLY

69.000.000.000.000.000.000.000

MAX BUY
MAX BAG **2%**

RENOUNCE
OWNERSHIP

BACK TO LP 1%

All transactions

Every transaction will return to liquidity, so the liquidity will automatically increase.

MARKETING 2%

All transactions

2% of the transaction tax is used for marketing, we will pay several artists to make arbzilla well known, including to develop utilities such as zillaswap which we will make on the arbitrum network.

Beyond the basics, ArbZilla project using innovative ways to expand while reaching new users, investors and traders.
